

Explanation

These three songs have been adapted from the larger work "Songs on Dutch children's poetry" (cat. nrs. 07 and 19) for a project where there was a need for a short choral item of less than 5 min. The project did not materialise due to lack of money, but this short version of 3 songs might nevertheless find its way. The text shall be sung in Dutch, as the special sounds and witticisms of the poems do not come across in any other language.
